

Front Bumper

For 2007-2018 Jeep Wrangler JK JKU

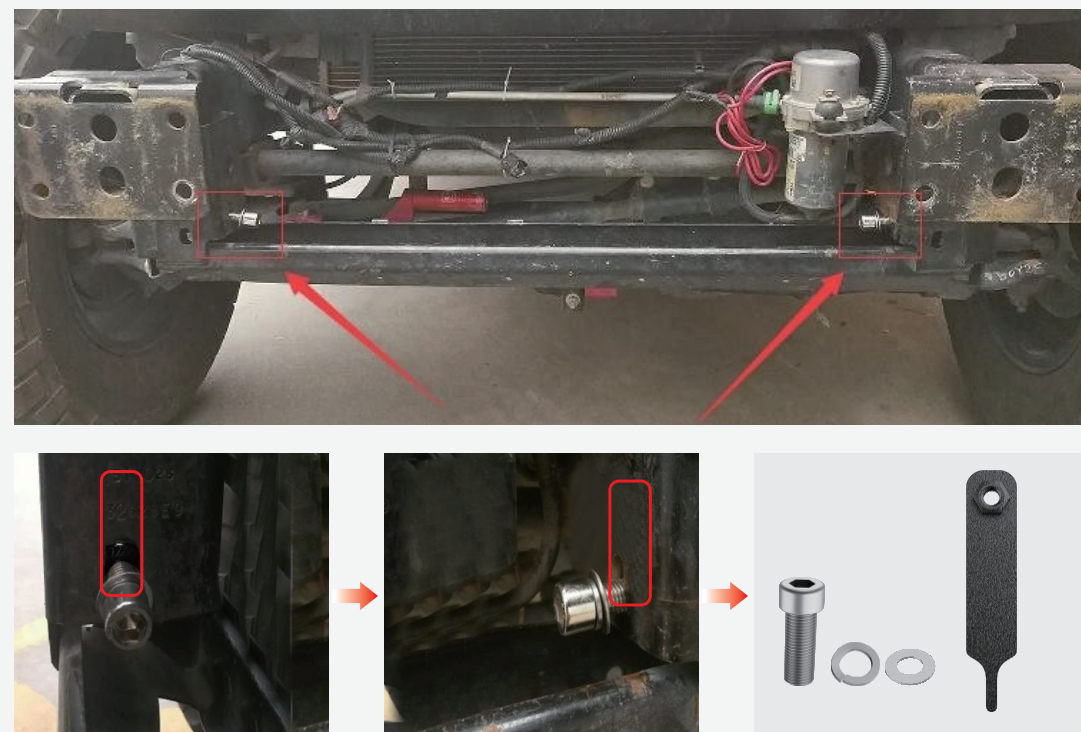

(1)Contents:

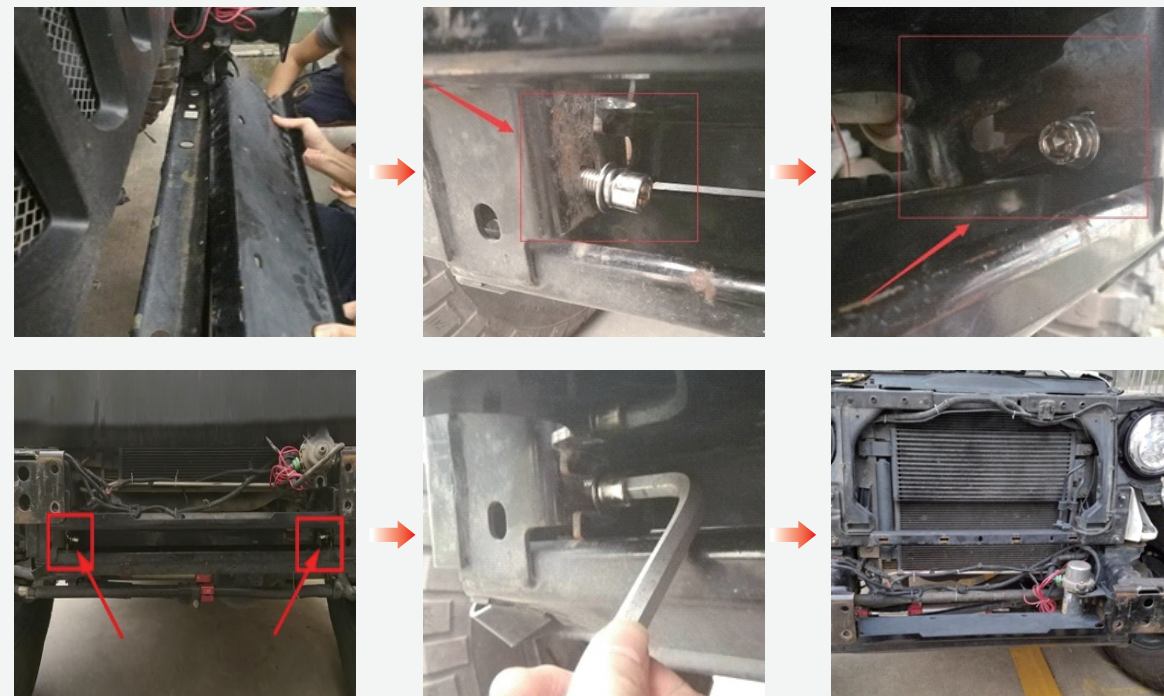

(2)Installation time: About 1 hour, 2-3 people may be needed

(3)Installation instruction:

1 Install the 2 of PART"H", PART"I", PART"J" &PART"F", don't tighten it in this step.

2 Install the PART"B" on it, and tighten the PART"H" with 10mm L type wrench. As shown below. (Please browse the note before step2, the steps are slightly different depending on the position of the carbon cylinder)

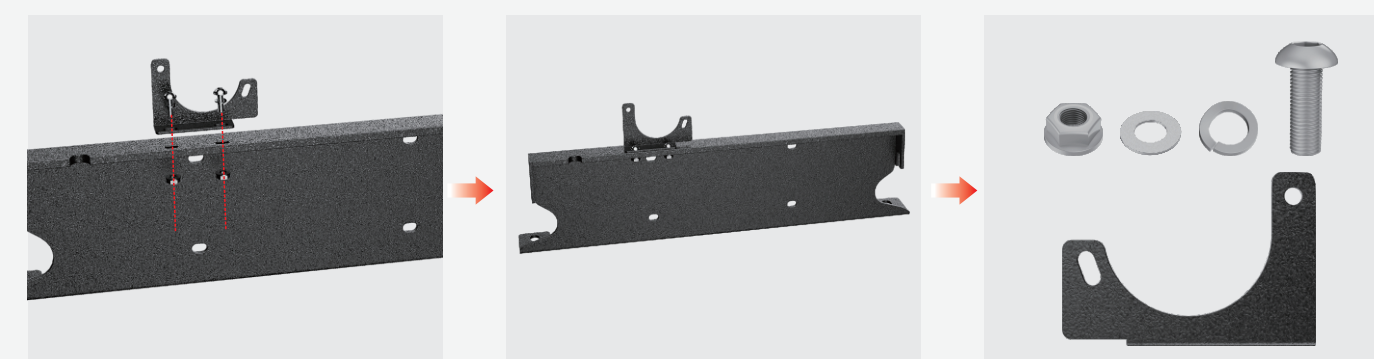

420*285mm

Notes

• Before installing the PART"B" winch plate , test fit to see if the carbon cylinder will resist the winch plate. If the carbon cylinder will be against the winch plate, remove the carbon cylinder, and install the PART"E" on the PART"B", with 2 of PART "L", PART"M"&"O", and 4 of PART"N".Then finish the step2 and install the carbon cylinder on the PART"E" (This bracket is used to hold the carbon cylinder. To make the winch plate fit properly, move the carbon cylinder position and fix the carbon cylinder on the bracket E.)

• If the carbon cylinder will not resist the winch plate, just do the step2, ignore the notes.

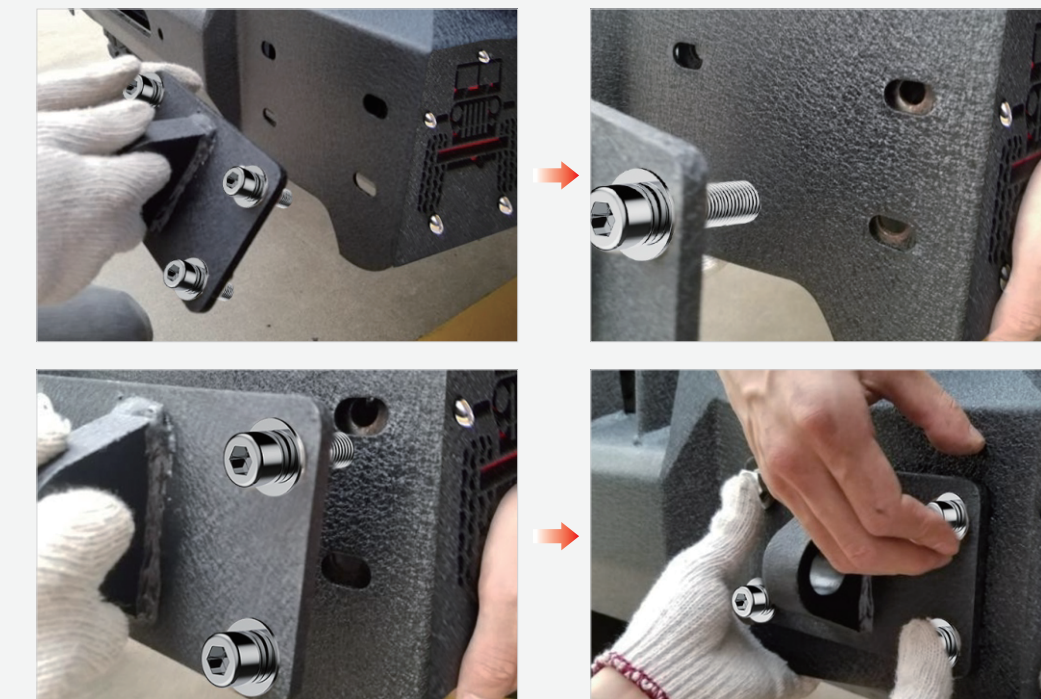

3 Install 2 of PART"D" on the PART"A", with 8 of PART"G", PART"I" &"K", and 16 of PART"J" then tighten the PART"G" one by one to fix the bumper to the vehicle.

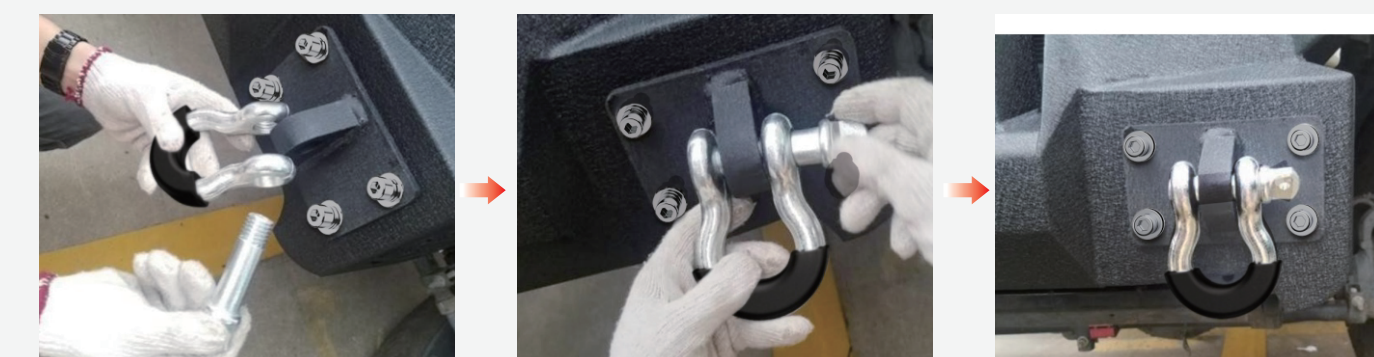

(a) Install the PART"D".

(b) Install the PART"D" on the JEEP

4 Install the PART"C" on the bumper.

5 Installation completed.
