

Installation Instructions

- 1** Remove the air dam from the underside of the stock bumper by removing the 6 retaining clips (4 exterior and 2 inside the air dam) with a set of pliers.

- 2** Next, unplug the factory fog lights and loosen the (8) 19mm nuts holding the front bumper to the support beam of the vehicle. Remove the bumper completely.

- 3** If you are installing a winch, remove the frame cover. This requires removing the center pin from the two clips, then pulling the clips out. or some prefer to leave it on if not running a winch, with applicable bumpers.

- 4** Remove the factory fog lights from the bumper for re-use on your new bumper by removing the 4 screws holding each one in place.

- 5** Install the factory fog lights into the openings in the back of the new bumper using the factory screws. Ensure the lights are centered in the housing before tightening all bolts/nuts.

- 6** You are ready to install the Nlight Front Bumper using the following parts:

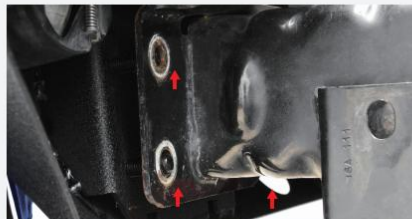

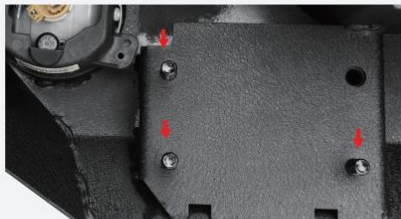

INCLUDED COMPONENTS

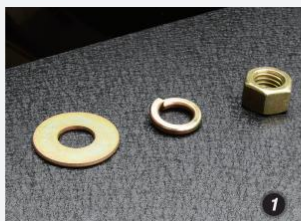

- (1) Bumper
- (8) 12mm spring washers
- (8) 12mm Flat washers
- (2) M12 Hex head screws
- (6) M12 Nuts
- (2) D-Rings

7

The Nilight front bumper has 3 bolts in each side. Those three bolts will slide directly into the same mounting holes the original bumper was removed from. The 4th hole in each side will receive a bolt that came in the parts bag supplied with the bumper.

**8**

Each of the 3 pre-installed bolts will attach with a flat washer, lock washer and nut. All 8 bolts connections will be tightened as shown partially completed in the following pictures.

**9**

Reconnect the fog light harness to the fog light that is now installed into your new bumper

**10**

Attach the included D-rings by unscrewing the clevis pin and fastening to the D-Ring mount on each side of the bumper.

Nilight Heavy Duty Front Bumper (07-18 Wrangler JK)
